## Book Descriptions:

### Camry 2007 le user manual

Coverage is subject to the terms and conditions of your New Vehicle Limited Warranty. See Owners Warranty and Maintenance Guide for details. Starting with the 2020 model year, every Toyota hybrid battery warranty is being increased from 8 years or 100,000 miles, to 10 years from date of first use, or 150,000 miles whichever comes first. This enhancement serves as an indication of our confidence in the quality, dependability, and reliability of our products. The HV battery may have longer coverage under emissions warranty. For Toyota hybrid vehicles beginning with model year 2020, the hybrid HV battery is covered for 10 years from original date of first use or 150,000 miles, whichever comes first. See Owners Warranty and Maintenance Guide for details. Most have 12 month coverage, and there aren't many, if any, companies that offer a longer guarantee. Car covers are warranted for 12 months from the date of purchase and do not assume any coverage under the Toyota New Vehicle Limited Warranty. So we thought the TCUV Warranty should be just as thorough. The HV battery may have longer coverage under emissions warranty. We also add a 1 year 24 hour Roadside Assistance Plan 4 from original date of TCUV purchase. For the enhanced peace of mind of an available Extended Vehicle Service Agreement, please visit Toyota Financial Services.
